

By Kim Sherrett, ACC, CTC

Sr. Director of Business Development

In business as a host agency since 1988, Travel Planners International is a leading Travel management and Solutions company dedicated to providing travel services to both leisure and corporate independent sellers of travel. We are privately owned and operated, thus giving us the freedom to make decisions based on our agents' needs and desires. Because of this mind-set, TPI has grown to be a premier travel solutions provider by staying true to its corporate values of Integrity, Customer-focused, Results-orientated, Teamwork, Excellence and Innovation.

Always motivated to create new programs and services that are competitive and profitable to the independent contractor, TPI continuously stays in the forefront of the travel industry. Developing, supporting, and strengthening our relationships is the key to our success. It is our goal at Travel Planners International to make sure that our relationships are mutually beneficial and every member of our organization works hard to achieve this.

The technology used is innovative and standard industry software easily maneuvered. TPI ICs have access to accounting for their business, thus allowing them to manage their day to day sales and commission earnings, as well as a variety CRM tools, and point and click booking

Travel Planners International

tools. Add to that our Marketing Website, which houses the current educational webinar calendar and archived training and supplier webinars to assist with the growth of their business. Our Marketing and Business Development Department provides continuous education opportunities using CLIA, The Travel Institute, and BrandUCoaching for those independent contractors that wish to enhance their professional development.

Each of our ICs' receives a consumer website with optional consumer booking tools as well. If an IC sells mostly corporate or large volume air, we offer Amadeus, Apollo, Sabre, and Worldspan. As optional add-ons to their programs, an IC may elect to take advantage of customized website development and enhancement, logo design, and direct mail programs. Through our consortia relationship with Vacation.com, our ICs are encouraged to take advantage of the Engagement program which allows targeted marketing as well. We also offer several different lead generation programs designed to increase the IC's bottom line.

All of TPI's affiliates are independent contractors and maintain their own identities and business models. Each agent is unique in their specialty or niche. Travel Planners International does not sell travel nor compete with our independent contractors. All we do is support. There are no minimum requirements or sales quotas.

TPI offers the experienced agent several different commission level programs to choose from, starting at no monthly fee, going up to \$199 a month.

For those individuals that are new to the industry, we offer two training programs that will move a new agent right into one of our commission level programs, Express and Enhanced. Both programs were designed to cover all aspects of learning abilities and time.

Travel Planners International is a member of ASTA, ARC, CLIA, IATA, NACTA, PATH, OSSN, PLS, The Travel Institute, TPOC, and Vacation.com.
